Hi Andrew,

Here is a tape of the Meadowlands show from '81. As I wrote you the quality is not great, but I've been listening to it for close to 18 years and this is apparently the only version circulating. I recently got a new copy of it, so this version is not from an 18-year-old tape.

As a special bonus I've included selected tracks (all I have) from the Philly show of the same tour which happened a few days before.

I also included another little bonus that I hope you will enjoy.

Can't wait to see the videos and thanks for getting in touch with me.
